(2) The sum of contract acreage (as defined in section 102 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7202)) used by the Secretary to calculate the fiscal year 2002 payment that, subject to section 109, would be made under section 114 of such Act (7 U.S.C. 7214) for the covered commodity on the farm and the four-year average determined under paragraph (1) for soybeans and each other oilseed produced on the farm.

(b) **SINGLE ELECTION; TIME FOR ELECTION.**—The opportunity to make the election described in subsection (a) shall be available to producers on a farm only once. The producers shall notify the Secretary of the election made by the producers under such subsection not later than 180 days after the date of the enactment of this Act.

(c) **EFFECT OF FAILURE TO MAKE ELECTION.**—If the producers on a farm fail to make the election under subsection (a), or fail to timely notify the Secretary of the selected option as required by subsection (b),

The Secretary shall give the producers on the farm the opportunity to select the base acres or peanut acres against which the reduction will be made.

(2) **OTHER ACREAGE.**—For purposes of paragraph (1), the Secretary shall include the following:

(A) Any peanut acres for the farm under chapter 3 of subtitle C.

(A) TIMING.—The Secretary shall make the determinations required by this subsection not later than 90 days after the date of enactment of this section.

(B) FACTORS.—In making the determinations, the Secretary shall take into account changes in the number and identity of historical peanut producers sharing in the risk of producing a peanut crop since the 1998 crop year, including providing a method for the assignment of average acres and average yield to a farm when a historical peanut producer is no longer living or an entity composed of historical peanut producers has been dissolved.

(b) ASSIGNMENT OF YIELD AND ACRES TO FARMS.—

(d) PAYMENT ACRES.—The payment acres for peanuts on a farm shall be equal to 85 percent of the peanut acres assigned to the farm.

“(C) ADJUSTMENT.—If on completion of the assessment under subparagraph (B), the Secretary determines that the rental payments do not equal, to the maximum extent practicable, the value of payments under a 30-year easement, the Secretary shall adjust the amount of the remaining payments to equal, to the maximum extent practicable, the value of a 30-year easement over the entire 30-year rental period.

“(c) FEDERAL SHARE OF COST OF RESTORATION.—The Secretary shall make payments to the owner of not more than 75 percent of the cost of carrying out measures and practices necessary to restore grassland and shrubland functions and values.

“(d) TECHNICAL ASSISTANCE.—

“(2) REIMBURSEMENT BY COMMODITY CREDIT CORPORATION.—The Commodity Credit Corporation shall reimburse the Secretary, acting through the Natural Resources Conservation Service, for not more than 10 percent of the cost of acquisition of the easement and the Federal share of the cost of restoration obligated for that fiscal year.

“(e) PAYMENTS TO OTHERS.—If an owner that is entitled to a payment under this subchapter dies, becomes incompetent, is otherwise unable to receive the payment, or is succeeded by another person who renders or completes the required performance, the Secretary shall make the payment, in accordance with regulations promulgated by the Secretary and without regard to any other provision of law, in such manner as the Secretary determines is fair and reasonable in light of all the circumstances.

“(2) APPLICATION.—An organization that desires to hold an easement under this subchapter shall apply to the Secretary for approval.

“(3) APPROVAL BY SECRETARY.—The Secretary shall approve an organization under this subchapter that is constituted for conservation or ranching purposes and is competent to administer grassland and shrubland easements.

“(4) REASSIGNMENT.—If an organization holding an easement on land under this subchapter terminates—

“(b) **RELATION TO OTHER CONSERVATION PROGRAMS.**—Under the program, the Secretary may implement, alone or in combination, the features of—

“(1) any conservation program administered by the Secretary; or

“(2) any conservation program administered by another Federal agency or a State or local government, if implementation by the Secretary—

“(A) is feasible; and

“(B) is carried out with the consent of the applicable administering agency or government.

“(3) **CONSERVATION ENHANCEMENT PROGRAMS.**—

“(A) **IN GENERAL.**—States, local governments, Indian tribes, or any combination of those entities may submit, and the Secretary may approve, a conservation enhancement program that integrates 1 or more Federal agriculture and forestry conservation programs and 1 or more State, local, or private efforts to address, in critical areas and corridors, in a manner that enhances the conservation benefits of the individual programs and modifies programs to more effectively address State and local needs—

“(i) water quality;

“(ii) wildlife;

“(iii) farm preservation; and

“(iv) any other conservation need.

“(B) **REQUIREMENT.**—

“(1) **IN GENERAL.**—A conservation enhancement program submitted under subparagraph (A) shall be designed to provide benefits greater than benefits that, by reason of any factor described in clause (ii), would be provided through the individual application of a conservation program administered by the Secretary.

Funds from existing programs may be used only to carry out the purposes and intents of those programs to the degree that those programs are made a part of a Farmland Stewardship Agreement. Funding for other purposes or intents must come from the funds provided under paragraphs (1)(B) and (1)(C) of subsection (c) or from the matching funding contributions made by State, regional, or local agencies and divisions of government or from private funding sources.

“(d) **PERSONNEL COSTS.**—The Secretary shall use the Natural Resources Conservation Service to carry out the Farmland Stewardship Program in cooperation with the state department of agriculture or other designated agency within the state. The role of the Natural Resources Conservation Service shall be limited to federal oversight of the program. However, it shall play no role in the assembly of programs administered by other federal agencies into Farmland Stewardship Agreements.

“(e) **STATE LEVEL ADMINISTRATION.**—The state departments of agriculture shall have primary responsibility for operating the Farmland Stewardship Program. A state department of agriculture may choose to operate the program on its own, may collaborate with another local, state or federal agency, conservation district or tribe in operating the program, or may delegate responsibility to another state agency, such as the state department of natural resources or the state conservation district agency. The state department of agriculture or designated state agency shall consult with the agencies with management authority and responsibility for the resources affected on properties on which Farmland Stewardship Agreements are negotiated and assembled.

“(1) A state department of agriculture shall submit an application to the Secretary requesting designation as the ‘designated state agency’ to operate the Farmland Stewardship Program. If the state department of agriculture chooses to delegate responsibility to another state agency, the department of agriculture shall ask the governor to designate another agency for this purpose and that agency shall submit application to the Secretary.

“(2) The Secretary shall approve the request for designation as the ‘designated state agency’ if the agency demonstrates that it has the capability to implement the Farmland Stewardship Program and attests that it shall conform with the confidentiality requirements in Sec. 1238B(g). Upon approval of the request, the Secretary shall enter into a memorandum of understanding with the designated state agency specifying the state’s responsibilities in carrying out the program and the amount of technical assistance funds that shall be provided to the state on an annual basis to operate the program, in accordance with paragraphs (1)(C), (1)(E) and (1)(F) of subsection (g).

“(f) ANNUAL REPORTS.—The designated state agency shall annually submit to the Secretary and make publicly available a report that describes—

“(1) The progress achieved, the funds expended, the purposes for which funds were expended and monitoring and evaluating results obtained by local contracting agencies, and

“(2) The plans and objectives of the State for future activities under the program.

“(g) TECHNICAL ASSISTANCE.—

“(1) Of the funds used from other programs and of funds made available to carry out the Farmland Stewardship Program for a fiscal year, the Secretary shall reserve not more than twenty-five percent for the provision of technical assistance under the Program. Of the funds made available—

“(A) not more than 1.5% shall be reserved for administration, coordination and oversight through the Natural Resources Conservation Service headquarters office;

“(B) not more than 1.5% shall be reserved for the Farmland Stewardship Council to carry out its duties in cooperation with the State Technical Committees, as provided under section 1238E;

“(C) not more than 2.0% shall be reserved for administration and coordination through the designated state agency in the state where the property is located;

“(D) not more than 1.0% shall be reserved for administration and coordination through the Natural Resources Conservation Service state office, in the state where property is located;

“(E) not more than 1.0% shall be reserved for administration and coordination through the state conservation district agency, unless such agency is the designated state agency for administering this program, in which case these funds shall be added to the funds in the next paragraph; and

“(F) not less than 18% shall be reserved for local technical assistance, carried out through a designated ‘contracting agency’ and subcontractors chosen by and working with the contracting agency for preparing and executing agreements and monitoring, evaluating and administering agreements for their full term.

“(2) An owner or operator who is receiving a benefit under this chapter shall be eligible to receive technical assistance in accordance with section 1243(d) to assist the owner or operator in carrying out a contract entered into under this chapter.

“(h) ENSURING AVAILABILITY OF FUNDS.—All amounts required for preparing, executing, carrying out, monitoring, evaluating and administering an agreement for its entire term shall be made available by the Federal, State, and local agencies and private sector entities involved in funding the agreement upon execution of the agreement.

“SEC. 1238B. USE OF FARMLAND STEWARDSHIP AGREEMENTS.

“(a) AGREEMENTS AUTHORIZED.—The Secretary shall carry out the Farmland Stewardship Program by entering into service contracts as determined by the Secretary, to

be known as farmland stewardship agreements, with the owners or operators of eligible agricultural land to maintain and protect the natural and agricultural resources on the land.

“(b) LEGAL BASIS.—An agreement shall operate in all respects as a service contract and, as such, provides the Secretary with the opportunity to hire the owner or operator of eligible agricultural land as a vendor to perform one or more specific services for an equitable fee for each service rendered. Any agency participating in the Farmland Stewardship Program that has the authority to enter into service contracts and to expend public funds under such contracts may enter into or participate in the funding of an agreement.

“(c) BASIC PURPOSES.—An agreement with the owner or operator of eligible agricultural land shall be used—

“(1) to negotiate a mutually agreeable set of guidelines, practices, and procedures under which conservation practices will be provided by the owner or operator to protect, maintain, and, where possible, improve, the natural resources on the land covered by the agreement in return for annual payments to the owner or operator;

“(2) to enable an owner or operator to participate in one or more of the conservation programs offered through agencies at all levels of government and the private sector and, where possible and feasible, comply with permit requirements and regulations, through a one-stop, one-application process.

“(3) to implement a conservation program or series of programs where there is no such program or to implement conservation management activities where there is no such activity;

“(4) to expand or maintain conservation practices and resource management activities to a property where it is not possible at the present time to negotiate or reach agreement on a public purchase of a fee-simple or less-than-fee interest in the property for conservation purposes; and

“(5) to negotiate and develop agreements with private owners and operators to expand or maintain their participation in conservation activities and programs; to enable them to install or maintain best management practices (BMPs) and other recommended practices to improve the compatibility of agriculture, horticulture, silviculture, aquaculture and equine activities with the environment; and improve compliance with public health, safety and environmental regulations.

“(d) MODIFICATION OF OTHER CONSERVATION PROGRAM ELEMENTS.—If most, but not all, of the limitations, conditions, policies and requirements of a conservation program that is implemented in whole, or in part, through the Farmland Stewardship Program are met with respect to a parcel of eligible agricultural land, and the purposes to be achieved by the agreement to be entered into for such land are consistent with the purposes of the conservation program, then the Secretary may waive any remaining limitations, conditions, policies or requirements of the conservation program that would otherwise prohibit or limit the agreement. The Secretary may also grant requests to—

“(1) establish different or automatic enrollment criteria than otherwise established by regulation or policy;

“(2) establish different compensation rates to the extent the parties to the agreement consider justified;

“(3) establish different conservation practice criteria if doing so will achieve greater conservation benefits;

“(4) provide more streamlined and integrated paperwork requirements;

“(5) provide for the transfer of conservation program funds to states with flexible incentives accounts; and

“(6) provide funds for an adaptive management process to monitor the effectiveness of the Program for wildlife, the protection of natural resources, economic effectiveness and sustaining the agricultural economy.

“(7) For a waiver or exception to be considered, a contracting agency or the designated state agency must—

“(A) Submit a request for a waiver to the Secretary or Administrator who has responsibility for the program for which a waiver or exception is being requested. Requests for waivers or exceptions in programs administered by the United States Department of Agriculture shall be submitted to the Secretary of Agriculture, while requests for waivers or exceptions in programs administered by the United States Department of Interior shall be submitted to the Secretary of Interior and requests for waivers or exceptions in programs administered by the United States Environmental Protection Agency shall be submitted to the Administrator of that Agency, and so forth.

“(B) The request shall—

“(i) explain why the property qualifies for participation in the program;

“(ii) explain why it is necessary or desirable to make an exception to or waive one or more program limitations, conditions, policies or requirements;

“(iii) if possible, suggest alternative methods or approaches to satisfying these limitations, conditions, policies or requirements that are appropriate for the property in question;

“(iv) request that the Secretary or Administrator grant the exception or waiver, based on the documentation submitted.

“(C) The Secretary or Administrator may request additional documentation, or may suggest alternative methods of overcoming program limitations or obstacles on the property in question, prior to deciding whether or not to grant a request for an exception or waiver.

“(D) Waivers and exceptions may be granted by a Secretary or Administrator to allow additional flexibility in tailoring conservation programs to the specific needs, opportunities and challenges offered by individual parcels of land, and to remove administrative and regulatory obstacles that previously may have limited the use of these programs on eligible agricultural land, or would prevent these programs from being combined together through a Farmland Stewardship Agreement. Waivers and exceptions may be granted only if the purposes to be achieved by the program after the waiver or exception is granted remain consistent with the purposes for which the program was established.

“(E) The Secretaries and Administrators who receive requests for waivers or exceptions under this chapter shall respond to these requests within sixty (60) days of receipt. Decisions on whether to grant a request shall be rendered within one hundred eighty (180) days of receipt.

“(e) PROVISIONAL CONTRACTS.—Provisional contracts shall be used to provide payments to private landowners or operators, and to the organization or agency that will oversee the agreement, while baseline data is gathered, documents are prepared and the formal agreement is being negotiated. Provisional contracts shall pay for all technical services required to establish an agreement. Provisional contracts may be used to establish a Farmland Stewardship Agreement, or any other type of conservation program, permit or agreement on private land. Provisional contracts shall be used during a two-year planning period, which may be extended for up to two additional periods of six months

each by mutual agreement between the Secretary, the contracting agency and the owner or operator.

“(f) **PAYMENTS.**—Payments to owners and operators shall be made as provided in the programs that are combined as part of a Farmland Stewardship Agreement. At the election of the owner or operator, payments may be collected and combined together by the designated state agency and issued to the owner or operator in equal annual payments over the term of the agreement. Payments for other services rendered by the owner or operator shall be made as follows—

“(1) **IN GENERAL.**—Programs that contain term or permanent easements may be combined into a Farmland Stewardship Agreement. Except for portions of a property affected by easements, Farmland Stewardship Agreements shall provide no interest in property and shall be solely contracts for specific services. The fees paid shall be based on the services provided. Compensation shall include—

“(A) **ANNUAL BASE PAYMENT.**—All owners or operators enrolled in a Farmland Stewardship Agreement shall receive an annual base payment, at a rate to be determined by the Secretary. The annual base payment shall be considered by the Secretary to be satisfied if the owner or operator receives annual payments from another conservation program that has been incorporated into the Farmland Stewardship Agreement. In addition, owners and operators shall receive—

“(B) **DIRECT FEES FOR SERVICES.**—These fees shall be based on the cost of providing each service. These fees may be set by adopting private sector market prices for the performance of similar services or by competitive bidding. Or, alternatively—

“(C) **ANNUAL PER-ACRE STEWARDSHIP FEES.**—These fees shall be based on the services provided, or the quantity of benefits provided, with higher fees for greater benefits that can be quantified. Such values shall be determined and set by the Secretary. Or, alternatively—

“(D) **OTHER INCENTIVES.**—Other forms of compensation acceptable to an owner or operator also may be considered. These other forms of compensation may include federal, state or local tax waivers, credits, reductions or exclusions; priority processing of permits from state and local agencies; consolidation of permits from state and local agencies into a single operating plan; extended-duration permits from state and local agencies; enhanced eligibility and priority listing for participation in cost-share programs, loan programs, conservation programs and permanent conservation easement or public purchase programs; and priority access to technical assistance services provided by federal and, where possible, local, regional and state agencies.

“(g) **CONFIDENTIALITY OF DATA.**—All information or data provided to, obtained by or developed by the Secretary, or any contractor to the Secretary or the designated state agency, for the purpose of providing technical or financial assistance to owners or operators in connection with the United States Department of Agriculture's conservation programs, or in connection with the Farmland Stewardship Program, shall be—

“(1) Kept confidential by all officers and employees of the Department and the designated state agency;

“(2) Not released, disclosed, made public or in any manner communicated to any agency, state or person outside the Department and the designated state agency; and

“(3) Not subject to any other law that would require the information or data to be released, disclosed, made public or in any way communicated to any agency, state or

person outside the Department and designated state agency.

“(4) Any information or data related to an individual farm owner or operator may be reported only in an anonymous, aggregated form as currently provided under the Department's National Agricultural Statistic Services.

“(h) **STATE AND LOCAL CONSERVATION PRIORITIES.**—To the maximum extent practicable, agreements shall address the conservation priorities established by the State and locality in which the eligible agricultural land are located. The Secretary may adopt for this purpose a pre-existing state or regional conservation plan or strategy that maps economically and ecologically important land, including a plan developed pursuant to planning requirements under Title VIII of the 2001 Interior Appropriations Act and Title IX of the 2001 Commerce, Justice, State Appropriations Act.

“(i) **WATERSHED ENHANCEMENT.**—To the extent practicable, the Secretary shall encourage the development of Farmland Stewardship Program applications on a watershed basis.

“(5) demonstrates to the satisfaction of the Secretary that it has or will have the necessary staff resources and expertise to carry out its responsibilities under paragraphs (3) and (4).

“(d) **DELEGATION OF RESPONSIBILITY.**—The Secretary may delegate responsibility for reviewing and approving applications from local contracting agencies to the state department of agriculture or other designated state agency in the state in which the property is located, provided that the designated agency follows the criteria for reviewing and approving applications as established by the

Secretary and consults with the agencies with management authority and responsibility for the resources affected on properties on which Farmland Stewardship Agreements are negotiated and assembled.

“SEC. 1238D. PARTICIPATION OF OWNERS AND OPERATORS OF ELIGIBLE AGRICULTURAL LAND.

“(a) **APPLICATION AND APPROVAL PROCESS.**—To participate in the Farmland Stewardship Program, an owner or operator of eligible agricultural land shall—

“(b) **APPLICATION ON BEHALF OF AN OWNER OR OPERATOR.**—A designated contracting agency may submit the application required by subsection (a) on behalf of an owner or operator if the contracting agency has secured the consent of the owner or operator to enter into an agreement.

“(c) **DELEGATION OF RESPONSIBILITY.**—The Secretary may delegate responsibility for reviewing and approving applications from or on behalf of an owner or operator to the state department of agriculture or other designated agency in the state in which the property is located, provided that the designated agency follows the criteria for reviewing and approving applications as established by the Secretary and consults with the agencies with management authority and responsibility for the resources affected on properties on which Farmland Stewardship Agreements are negotiated and assembled.

“SEC. 1238E. CREATION OF A FARMLAND STEWARDSHIP COUNCIL REGARDING PROGRAM.

“(a) **APPOINTMENT.**—The Secretary shall appoint an advisory committee to assist the Secretary in carrying out the Farmland Stewardship Program.

SEC. 311. FARMERS FOR AFRICA AND CARIBBEAN BASIN PROGRAM.

(a) **FINDINGS.**—Congress finds the following:

(1) Many African farmers and farmers in Caribbean Basin countries use antiquated techniques to produce their crops, which result in poor crop quality and low crop yields.

(2) Many of these farmers are losing business to farmers in European and Asian countries who use advanced planting and production techniques and are supplying agricultural produce to restaurants, resorts, tourists, grocery stores, and other consumers in Africa and Caribbean Basin countries.

(3) A need exists for the training of African farmers and farmers in Caribbean Basin countries and other developing countries in farming techniques that are appropriate for the majority of eligible farmers in African or Caribbean countries, including standard growing practices, insecticide and sanitation procedures, and other farming methods that will produce increased yields of more nutritious and healthful crops.

(4) African-American and other American farmers, as well as banking and insurance professionals, are a ready source of agribusiness expertise that would be invaluable for African farmers and farmers in Caribbean Basin countries.

(5) A United States commitment is appropriate to support the development of a comprehensive agricultural skills training program for these farmers that focuses on—

(A) improving knowledge of insecticide and sanitation procedures to prevent crop destruction;

(B) teaching modern farming techniques, including the identification and development of standard growing practices and the establishment of systems for recordkeeping, that would facilitate a continual analysis of crop production;

(C) the use and maintenance of farming equipment that is appropriate for the majority of eligible farmers in African or Caribbean Basin countries;

(D) expansion of small farming operations into agribusiness enterprises through the development and use of village banking systems and the use of agricultural risk insurance pilot products, resulting in increased access to credit for these farmers; and

(E) marketing crop yields to prospective purchasers (businesses and individuals) for local needs and export.

(6) The participation of African-American and other American farmers and American agricultural farming specialists in such a training program promises the added benefit of improving access to African and Caribbean Basin markets for American farmers and United States farm equipment and products and business linkages for United States insurance providers offering technical assistance on, among other things, agricultural risk insurance products.

(7) Existing programs that promote the exchange of agricultural knowledge and expertise through the exchange of American and foreign farmers have been effective in promoting improved agricultural techniques and food security, and, thus, the extension of additional resources to such farmer-to-farmer exchanges is warranted.

(b) **DEFINITIONS.**—In this section:

(1) **AGRICULTURAL FARMING SPECIALIST.**—The term “agricultural farming specialist” means an individual trained to transfer information and technical support relating to agribusiness, food security, the mitigation and alleviation of hunger, the mitigation of agricultural and farm risk, maximization of crop yields, agricultural trade, and other

TITLE VIII—FORESTRY INITIATIVES

SEC. 801. REPEAL OF FORESTRY INCENTIVES PROGRAM AND STEWARDSHIP INCENTIVE PROGRAM.

The Cooperative Forestry Assistance Act of 1978 is amended by striking section 4 (16 U.S.C. 2103) and section 6 (16 U.S.C. 2103b).

SEC. 802. ESTABLISHMENT OF FOREST LAND ENHANCEMENT PROGRAM.

(a) **FINDINGS.**—Congress finds the following:

(1) There is a growing dependence on private nonindustrial forest lands to supply the necessary market commodities and non-market values, such as habitat for fish and wildlife, aesthetics, outdoor recreation opportunities, and other forest resources, required by a growing population.

(2) There is a strong demand for expanded assistance programs for owners of nonindustrial private forest land since the majority of the wood supply of the United States comes from nonindustrial private forest land.

(3) The soil, carbon stores, water and air quality of the United States can be maintained and improved through good stewardship of nonindustrial private forest lands.

(4) The products and services resulting from stewardship of nonindustrial private forest lands provide income and employment that contribute to the economic health and diversity of rural communities.

(5) Wildfires threaten human lives, property, forests, and other resources, and Federal and State cooperation in forest fire prevention and control has proven effective and valuable, in that properly managed forest stands are less susceptible to catastrophic fire, as dramatized by the catastrophic fire seasons of 1998 and 2000.

(6) Owners of private nonindustrial forest lands are being faced with increased pressure to convert their forestland to development and other uses.

(7) Complex, long-rotation forest investments, including sustainable hardwood management, are often the most difficult commitment for small, nonindustrial private forest landowners and, thus, should receive equal consideration under cost-share programs.

(8) The investment of one Federal dollar in State and private forestry programs is estimated to leverage \$9 on average from State, local, and private sources.

(b) **PURPOSE.**—It is the purpose of this section to strengthen the commitment of the Department of Agriculture to sustainable forestry and to establish a coordinated and cooperative Federal, State, and local sustainable forest program for the establishment, management, maintenance, enhancement, and restoration of forests on nonindustrial private forest lands in the United States.

(c) **FOREST LAND ENHANCEMENT PROGRAM.**—The Cooperative Forestry Assistance Act of 1978 is amended by inserting after section 3 (16 U.S.C. 2102) the following new section 4:

“SEC. 4. FOREST LAND ENHANCEMENT PROGRAM.

“(a) ESTABLISHMENT.—

“(1) **ESTABLISHMENT; PURPOSE.**—The Secretary shall establish a Forest Land Enhancement Program (in this section referred to as the ‘Program’) for the purpose of providing financial, technical, educational, and related assistance to State foresters to encourage the long-term sustainability of nonindustrial private forest lands in the United States by assisting the owners of such lands

in more actively managing their forest and related resources by utilizing existing State, Federal, and private sector resource management expertise, financial assistance, and educational programs.

“(2) **ADMINISTRATION.**—The Secretary shall carry out the Program within, and administer the Program through, the Natural Resources Conservation Service.

“(3) **COORDINATION.**—The Secretary shall implement the Program in coordination with State foresters.

“(b) **PROGRAM OBJECTIVES.**—In implementing the Program, the Secretary shall target resources to achieve the following objectives:

“(1) Investment in practices to establish, restore, protect, manage, maintain, and enhance the health and productivity of the nonindustrial private forest lands in the United States for timber, habitat for flora and fauna, water quality, and wetlands.

“(2) Ensuring that afforestation, reforestation, improvement of poorly stocked stands, timber stand improvement, practices necessary to improve seedling growth and survival, and growth enhancement practices occur where needed to enhance and sustain the long-term productivity of timber and nontimber forest resources to help meet future public demand for all forest resources and provide environmental benefits.

“(3) Reduce the risks and help restore, recover, and mitigate the damage to forests caused by fire, insects, invasive species, disease, and damaging weather.

“(4) Increase and enhance carbon sequestration opportunities.

“(5) Enhance implementation of agroforestry practices.

“(6) Maintain and enhance the forest landbase and leverage State and local financial and technical assistance to owners that promote the same conservation and environmental values.

“(c) **ELIGIBILITY.**—

“(1) **IN GENERAL.**—An owner of nonindustrial private forest land is eligible for cost-sharing assistance under the Program if the owner—

“(A) agrees to develop and implement an individual stewardship, forest, or stand management plan addressing site specific activities and practices in cooperation with, and approved by, the State forester, state official, or private sector program in consultation with the State forester;

“(B) agrees to implement approved activities in accordance with the plan for a period of not less than 10 years, unless the State forester approves a modification to such plan; and

“(C) meets the acreage restrictions as determined by the State forester in conjunction with the State Forest Stewardship Coordinating Committee established under section 19.

“(2) **STATE PRIORITIES.**—The Secretary, in consultation with the State forester and the State Forest Stewardship Coordinating Committee may develop State priorities for cost sharing under the Program that will promote forest management objectives in that State.

“(3) **DEVELOPMENT OF PLAN.**—An owner shall be eligible for cost-share assistance for the development of the individual stewardship, forest, or stand management plan required by paragraph (1).

“(d) **APPROVED ACTIVITIES.**—

“(1) **DEVELOPMENT.**—The Secretary, in consultation with the State forester and the State Forest Stewardship Coordinating Committee, shall develop a list of approved forest activities and practices that will be eligible for cost-share assistance under the Program within each State.

“(2) TYPE OF ACTIVITIES.—In developing a list of approved activities and practices under paragraph (1), the Secretary shall attempt to achieve the establishment, restoration, management, maintenance, and enhancement of forests and trees for the following:

“(A) The sustainable growth and management of forests for timber production.

“(B) The restoration, use, and enhancement of forest wetlands and riparian areas.

“(C) The protection of water quality and watersheds through the application of State-developed forestry best management practices.

“(D) Energy conservation and carbon sequestration purposes.

“(E) Habitat for flora and fauna.

“(F) The control, detection, and monitoring of invasive species on forestlands as well as preventing the spread and providing for the restoration of lands affected by invasive species.

“(G) Hazardous fuels reduction and other management activities that reduce the risks and help restore, recover, and mitigate the damage to forests caused by fire.

“(H) The development of forest or stand management plans.

“(I) Other activities approved by the Secretary, in coordination with the State forester and the State Forest Stewardship Coordinating Committee.

“(e) COOPERATION.—In implementing the Program, the Secretary shall cooperate with other Federal, State, and local natural resource management agencies, institutions of higher education, and the private sector.

“(f) REIMBURSEMENT OF ELIGIBLE ACTIVITIES.—

“(1) IN GENERAL.—The Secretary shall share the cost of implementing the approved activities that the Secretary determines are appropriate, in the case of an owner that has entered into an agreement to place non-industrial private forest lands of the owner in the Program.

“(2) RATE.—The Secretary shall determine the appropriate reimbursement rate for cost-share payments under paragraph (1) and the schedule for making such payments.

“(3) MAXIMUM.—The Secretary shall not make cost-share payments under this subsection to an owner in an amount in excess of 75 percent of the total cost, or a lower percentage as determined by the State forester, to such owner for implementing the practices under an approved plan. The maximum payments to any one owner shall be determined by the Secretary.

“(4) CONSULTATION.—The Secretary shall make determinations under this subsection in consultation with the State forester.

“(g) RECAPTURE.—

“(1) IN GENERAL.—The Secretary shall establish and implement a mechanism to recapture payments made to an owner in the event that the owner fails to implement any approved activity specified in the individual stewardship, forest, or stand management plan for which such owner received cost-share payments.

“(2) ADDITIONAL REMEDY.—The remedy provided in paragraph (1) is in addition to any other remedy available to the Secretary.

“(h) DISTRIBUTION.—The Secretary shall distribute funds available for cost sharing under the Program among the States only after giving appropriate consideration to—

“(1) the total acreage of nonindustrial private forest land in each State;

“(2) the potential productivity of such land;

“(3) the number of owners eligible for cost sharing in each State;

“(4) the opportunities to enhance non-timber resources on such forest lands;

“(5) the anticipated demand for timber and nontimber resources in each State;

“(6) the need to improve forest health to minimize the damaging effects of catastrophic fire, insects, disease, or weather; and

“(7) the need and demand for agroforestry practices in each State.

“(i) DEFINITIONS.—In this section:

“(1) NONINDUSTRIAL PRIVATE FOREST LANDS.—The term ‘nonindustrial private forest lands’ means rural lands, as determined by the Secretary, that—

“(A) have existing tree cover or are suitable for growing trees; and

“(B) are owned or controlled by any non-industrial private individual, group, association, corporation, Indian tribe, or other private legal entity (other than a nonprofit private legal entity) so long as the individual, group, association, corporation, tribe, or entity has definitive decision-making authority over the lands, including through long-term leases and other land tenure systems, for a period of time long enough to ensure compliance with the Program.

“(2) OWNER.—The term ‘owner’ includes a private individual, group, association, corporation, Indian tribe, or other private legal entity (other than a nonprofit private legal entity) that has definitive decision-making authority over nonindustrial private forest lands through a long-term lease or other land tenure systems.

(1) The severity and intensity of wildland fires has increased dramatically over the

past few decades as a result of past fire and land management policies.

(2) The record 2000 fire season is a prime example of what can be expected if action is not taken.

(3) These wildfires threaten not only the nation’s forested resources, but the thousands of communities intermingled with the wildlands in the wildland-urban interface.

(4) The National Fire Plan developed in response to the 2000 fire season is the proper, coordinated, and most effective means to address this wildfire issue.

(5) Whereas adequate authorities exist to tackle the wildfire issues at the landscape level on Federal lands, there is limited authority to take action on most private lands where the largest threat to life and property lies.

(6) There is a significant Federal interest in enhancing community protection from wildfire.

(b) ENHANCED PROTECTION.—The Cooperative Forestry Assistance Act of 1978 is amended by inserting after section 10 (16 U.S.C. 2106) the following new section:

“SEC. 10A. ENHANCED COMMUNITY FIRE PROTECTION.

“(a) COOPERATIVE MANAGEMENT RELATED TO WILDFIRE THREATS.—The Secretary may cooperate with State foresters and equivalent State officials in the management of lands in the United States for the following purposes:

“(1) Aid in wildfire prevention and control.

“(2) Protect communities from wildfire threats.

“(3) Enhance the growth and maintenance of trees and forests that promote overall forest health.

“(4) Ensure the continued production of all forest resources, including timber, outdoor recreation opportunities, wildlife habitat, and clean water, through conservation of forest cover on watersheds, shelterbelts, and windbreaks.

“(b) COMMUNITY AND PRIVATE LAND FIRE ASSISTANCE PROGRAM.—

“(1) ESTABLISHMENT; PURPOSE.—The Secretary shall establish a Community and Private Land Fire Assistance program (in this section referred to as the ‘Program’)—

“(A) to focus the Federal role in promoting optimal firefighting efficiency at the Federal, State, and local levels;

“(B) to augment Federal projects that establish landscape level protection from wildfires;

“(C) to expand outreach and education programs to homeowners and communities about fire prevention; and

“(D) to establish defensible space around private landowners homes and property against wildfires.

“(2) ADMINISTRATION AND IMPLEMENTATION.—The Program shall be administered by the Forest Service and implemented through the State forester or equivalent State official.

“(3) COMPONENTS.—In coordination with existing authorities under this Act, the Secretary may undertake on both Federal and non-Federal lands—

“(A) fuel hazard mitigation and prevention;

“(B) invasive species management;

“(C) multi-resource wildfire planning;

“(D) community protection planning;

“(E) community and landowner education enterprises, including the program known as FIREWISE;

“(F) market development and expansion;

“(G) improved wood utilization;

“(H) special restoration projects.

“(4) CONSIDERATIONS.—The Secretary shall use local contract personnel wherever possible to carry out projects under the Program.

“(c) AUTHORIZATION OF APPROPRIATIONS.—There are hereby authorized to be appropriated to the Secretary \$35,000,000 for each of fiscal years 2002 through 2011, and such sums as may be necessary thereafter, to carry out this section.”.

SEC. 805. INTERNATIONAL FORESTRY PROGRAM.

Section 2405(d) of the Global Climate Change Prevention Act of 1990 (title XXIV of Public Law 101-624; 7 U.S.C. 6704(d)) is amended by striking “2002” and inserting “2011”.

SEC. 806. WILDFIRE PREVENTION AND HAZARDOUS FUEL PURCHASE PROGRAM.

(a) FINDINGS.—Congress finds that—

(1) the damage caused by wildfire disasters has been equivalent in magnitude to the damage resulting from the Northridge earthquake, Hurricane Andrew, and the recent flooding of the Mississippi River and the Red River;

(2) more than 20,000 communities in the United States are at risk from wildfire and approximately 11,000 of those communities are located near Federal land;

(3) the accumulation of heavy forest fuel loads continues to increase as a result of disease, insect infestations, and drought, further increasing the risk of fire each year;

(4) modification of forest fuel load conditions through the removal of hazardous fuels would—

(A) minimize catastrophic damage from wildfires;

(B) reduce the need for emergency funding to respond to wildfires; and

(C) protect lives, communities, watersheds, and wildlife habitat;

(5) the hazardous fuels removed from forest land represent an abundant renewable resource, as well as a significant supply of biomass for biomass-to-energy facilities;

(6) the United States should invest in technologies that promote economic and entrepreneurial opportunities in processing forest products removed through hazardous fuel reduction activities; and

(7) the United States should—

(A) develop and expand markets for traditionally underused wood and other biomass as a value-added outlet for excessive forest fuels; and

(B) commit resources to support planning, assessments, and project reviews to ensure that hazardous fuels management is accomplished expeditiously and in an environmentally sound manner.

(b) DEFINITIONS.—In this section:

(1) **BIOMASS-TO-ENERGY FACILITY.**—The term “biomass-to-energy facility” means a facility that uses biomass as a raw material to produce electric energy, useful heat, or a transportation fuel.

(ii) is located within a county in which at least 15 percent of the total primary and secondary labor and proprietor income is derived from forestry, wood products, and forest-related industries, such as recreation, forage production, and tourism; and

(iii) is located near forest land, the condition of which land the Secretary determines poses a substantial present or potential hazard to the safety of—

(I) a forest ecosystem;

(II) wildlife; or

(III) in the case of a wildfire, human, community, or firefighter safety, in a year in which drought conditions are present; and

(B) any county that is not contained within a metropolitan statistical area that meets the conditions described in clauses (ii) and (iii) of subparagraph (A).

(3) **FOREST BIOMASS.**—The term “forest biomass” means fuel and biomass accumulation from precommercial thinnings, slash, and brush on forest land of the United States.

(4) **HAZARDOUS FUEL.**—

(A) **IN GENERAL.**—The term “hazardous fuel” means any excessive accumulation of organic material on public and private forest land (especially land in an urban-wildland interface area or in an area that is located near an eligible community and designated as condition class 2 under the report of the Forest Service entitled ‘Protecting People and Sustainable Resources in Fire-Adapted Ecosystems’, dated October 13, 2000, or that is designated as condition class 3 under that report) that the Secretary determines poses a substantial present or potential hazard to the safety of—

(i) a forest ecosystem;

(ii) wildlife; or

(iii) in the case of wildfire, human, community, or firefighter safety, in a year in which drought conditions are present.

(B) **EXCLUSION.**—The term “hazardous fuel” does not include forest biomass.

(c) **HAZARDOUS FUEL GRANT PROGRAM.**—

(1) **GRANTS.**—

(A) **IN GENERAL.**—Subject to the availability of appropriations, the Secretary may make grants to persons that operate biomass-to-energy facilities to offset the costs incurred by those persons in purchasing hazardous fuels derived from public and private forest land adjacent to eligible communities.

(B) **SELECTION CRITERIA.**—The Secretary shall select recipients for grants under subparagraph (A) based on—

(i) planned purchases by the recipients of hazardous fuels, as demonstrated by the recipient through the submission to the Secretary of such assurances as the Secretary may require; and

(ii) the level of anticipated benefits of those purchases in reducing the risk of wildfires.

(2) **GRANT AMOUNTS.**—

(A) **IN GENERAL.**—A grant under this subsection shall—

(i) be based on—

(I) the distance required to transport hazardous fuels to a biomass-to-energy facility; and

(i) completely and accurately disclose the use of grant funds; and

(ii) describe all transactions involved in the purchase of hazardous fuels derived from forest land.

(B) **ACCESS.**—On notice by the Secretary, the operator of a biomass-to-energy facility that purchases hazardous fuels, or uses hazardous fuels purchased, with funds from a grant under this subsection shall provide the Secretary with—

(i) reasonable access to the biomass-to-facility; and

(ii) an opportunity to examine the inventory and records of the biomass-to-energy facility.
